INTIMESEC

Security, Always In Time

ABOUT US

We have an elite team of experts specializing in deep malware analysis and advanced threat hunting. Our core responders are veterans of government and national defense cybersecurity units, specializing in digital forensics and neutralizing sophisticated APT (Advanced Persistent Threat) attacks.

Pioneering MDR in Taiwan since 2014, we were the first domestic team to deliver dedicated Threat Hunting and Managed Detection and Response services.

OUR MISSION

"INSTANT THREAT MITIGATION"

Unlike traditional tiered-pricing security services, ITSec MDR is an **all-in-one solution** designed by InTimeSec. We empower enterprises with comprehensive endpoint protection, integrating advanced behavioral analysis, real-time incident notification and response, and detailed post-event reporting with vulnerability remediation advice to neutralize threats at their source.

ITSEC MDR SERVICE LEVEL

Report
Root Cause analysis & Hardening tips to prevent recurrence

4

Remediate
Real-Time Threat Neutralization & Incident Mitigation

3

Notify
Validated Alerts & Expert Response Consultation

2

Analyze
24/7 Endpoint Monitoring & Proactive Threat Hunting

How Does Your Current Security Provider Measure Up?

UNRIVALED PROACTIVE THREAT HUNTING

ITSEC MDR

Eliminate Threats In Time

Our digital forensics team provides **24/7 uninterrupted monitoring** and incident response. We deliver expert consulting and high-precision alerts around the clock to keep your business secure.

One-Stop Service

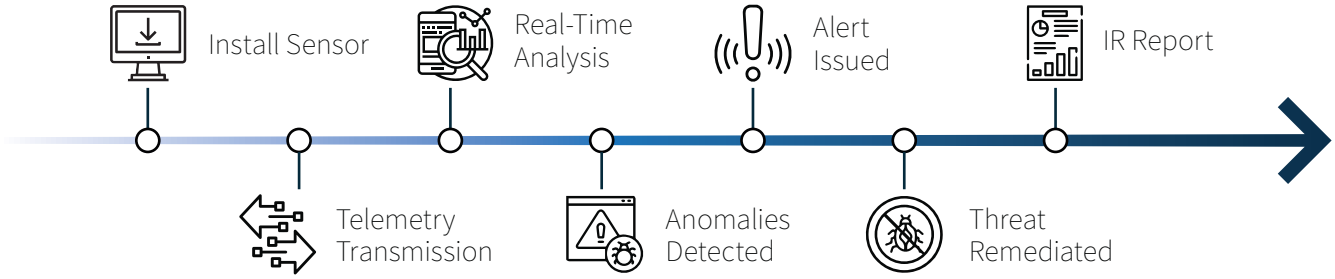
From initial detection and response to Root Cause Analysis and formal forensics, we provide the industry's most complete service scope in **one single package**. Our inclusive model eliminates the stress of unpredictable follow-up processing costs.

Rapid Cloud-Native Deployment

Our cloud-native architecture minimizes resource requirements to **reduce operational overhead**. Deployment is streamlined, allowing you to activate full-scale protection within minutes.

Comprehensive 24/7 MDR Protection with Unlimited Incident Response

ITSEC MDR SERVICE WORKFLOW



MDR AND SOC COMPARISON

	ITSec MDR	SOC / SIEM
Technology Stack	Big Data + EDR	Log-Centric SIEM
Operational Logic	Proactive Hunting & Behavioral Analysis	Reactive Alert-Triggered Validation
Analysis Scope	Holistic Behavioral Context	Isolated Alert Events
Service Commitment	Unlimited Incident Response (IR)	Notification & Escalation Only
Final Value	Remediation, Root Cause Analysis	Alert Triage & Closure

INCIDENT RESPONSE TIMELINE

*Within a few minutes, threat hunting and mitigation begins.

SYSTEM REQUIREMENT

Supported OS

- Windows 7+
- Windows Server 2008 R2+
- CentOS 7+
- Red Hat 7+
- Ubuntu 16.04+
- Debian 8+
- SUSE-SLES 12 SP3+

Resource

- CPU Usage: Less than 1%
- Bandwidth: Average of 1Mb/s per 1,000 devices.

*Calculated based on an average environment of 900 PCs and 100 Servers

Official ANZ Distribution | MSP Partnership

insta Solutions

We provide comprehensive detection, analysis, and remediation reports alongside actionable improvements. Beyond simply notifying you of threats, we provide real-time assistance in repelling hacker attacks, removing the burden of independent investigation from your shoulders.
